

COVID-19 Consumer Tip Sheet

Tips for Protecting Yourself and Medicare

Scams related to the coronavirus, also known as COVID-19, are rapidly increasing as the public health emergency develops. Scammers are targeting older adults and those with serious long-term health conditions who appear to have a higher risk for serious illness from COVID-19.

Fraudsters are attempting to bill Medicare for sham tests or treatments related to the coronavirus and are targeting individuals to illegally obtain money or Medicare numbers.

COVID-19 Vaccine Schemes

Scammers rapidly alter their tactics and adapt their schemes to the changing landscape, and we anticipate that they will leverage the COVID-19 vaccine to prey on unsuspecting beneficiaries. Be vigilant and protect yourself from potential fraud concerning COVID-19 vaccines and treatments.

Here are things you need to know about the COVID-19 vaccine:

- You likely will not need to pay anything out-of-pocket to get the vaccine during this public health emergency.

- You cannot pay to put your name on a list to get the vaccine.
 - You cannot pay to get early access to the vaccine.
- You will not be solicited door to door to receive the vaccine.

No one from Medicare or the Health Department will contact you.

- No one from a vaccine distribution site or health care payer, like a private insurance company, will call you asking for your Medicare number, Social Security number, or your credit card or bank account information to sign you up to get the vaccine.

What Does Medicare Cover in Relation to COVID-19?

- Medicare Part B (Medical Insurance) covers COVID-19 tests when ordered by your doctor or health care provider on or after February 4, 2020.
- Medicare covers all medically necessary hospitalizations, including extra days in the hospital for patients who had to stay longer under COVID-19 quarantine.
- Medicare also recently expanded coverage of telehealth services to enable beneficiaries to access a wider range of services from their providers without having to travel to a facility.
 - This includes access to doctors, nurse practitioners, clinical psychologists, and licensed clinical social workers.
 - During this emergency, there are also more options for the ways your providers can talk with you under this provision.
